

Highest precision for tool grinding

20
Newsletter

*HSK holder and tool
will be ground as a unit !*

*10 times faster by
direct clamping of tool cone*

With KDS direct clamping of tool cone system our tool grinder **SU2** offers highest manufacturing quality under workshop conditions.

The complete tool holder with clamped tool will be clamped into the sleeve for grinding. By this, tolerances will be eliminated. Improvement of concentricity leads to minor tool wear and the work piece quality will be improved importantly.

Inconvenient and time-consuming clamping work will be omitted. This leads to remarkable time saving and hence to increase of productivity.

- ▼ *Highest concentricity*
- ▼ *Time saving five- to ten-fold*
- ▼ *Increase of tool life*
- ▼ *Improvement of work piece quality*
- ▼ *Decrease of set-up costs*
- ▼ *Tool holders up to HSK 32*
